

ELECTRICITY AND WATER TARIFF (2016)

ELECTRICITY AND WATER TARIFF (EFFECTIVE 1st MARCH 2016)

The electricity and water tariff will be adjusted for other accounts while retaining the current tariff in application prior to the coming into force of the adjustment resolution for each Bahrain customer holding one domestic account only.

The basis for retaining the tariff in application prior to the enforcement of the Adjustment Resolution for a Bahraini customer holding a single domestic account:

- A Bahraini head of a household*.
- A single domestic consumption category account.
- The address in the Identity Card (ID) must correspond to that registered for the electricity and water account.

* See the instances to which the current tariff will continue applicable for a Bahraini citizen holding a single domestic account.

ELECTRICITY AND WATER TARIFF (2016)

Essentiality for the Account Address to Correspond to the Smart Card Address

1. One domestic account for each Bahraini citizen will be **automatically entered** in the Customers' Services System for retaining the current electricity and water tariff where the address in the Identity Card correspond to that registered for the electricity and water account.
2. If the ID address does not correspond to that of the electricity and water account, or if a customer holding more than one account wishes to retain the current tariff for a particular account, such customer has to contact the Information and eGovernment Authority to have his electricity and water address changed.

Representatives of the Information and eGovernment Authority will be available at the Electricity & Water Customers' Service Centres for changing addresses, if required:

- **Isa Town Customers' Service Centre**
- **Muharraq Customers' Service Centre**
- **Customers Services Centre (Country Mall - Budaya Road)**

Personal Address of a Customer as in the Identity Card
