

ELECTRICITY AND WATER TARIFF 2016

EFFECTIVE MARCH 2016

The electricity and water tariff for other accounts will be adjusted while the tariff applicable prior to the effective date of the Adjustment Resolution to a Bahraini subscriber holding a single domestic account will remain unchanged.

The basis for retaining the tariff in application prior to the enforcement of the Adjustment Resolution for a Bahraini subscriber holding a single domestic account:

- Being a Bahraini citizen
 - Holding a single account only of the domestic consumption category*
 - Single domestic account only
 - The address in the Identity Card (ID) of the subscriber must correspond to that registered for the electricity and water account.
- * Please refer to the instances to which the current tariff for a Bahraini subscriber holding a single domestic account only will apply.

The domestic consumption tariff for a Bahraini citizen holding a single account only will remain as follows:

Electricity Tariff

Consumption Unit	Tariff (Fils)
0 - 3000	3
3001 - 5000	9
More than 5000	16

Water Tariff

Consumption Units (m³)	Tariff (Fils)
60 - 0	25
100 -61	80
More than 100	200

451	1000	500	600	700	750
More than 1000		750	750	750	750

One domestic account for each Bahraini citizen will be automatically entered in the Subscribers' Services System for retaining the current electricity and water tariff where the **address** in the **Identity** Card correspond to that registered for the **electricity and water** account.

Personal address to the subscriber identity card

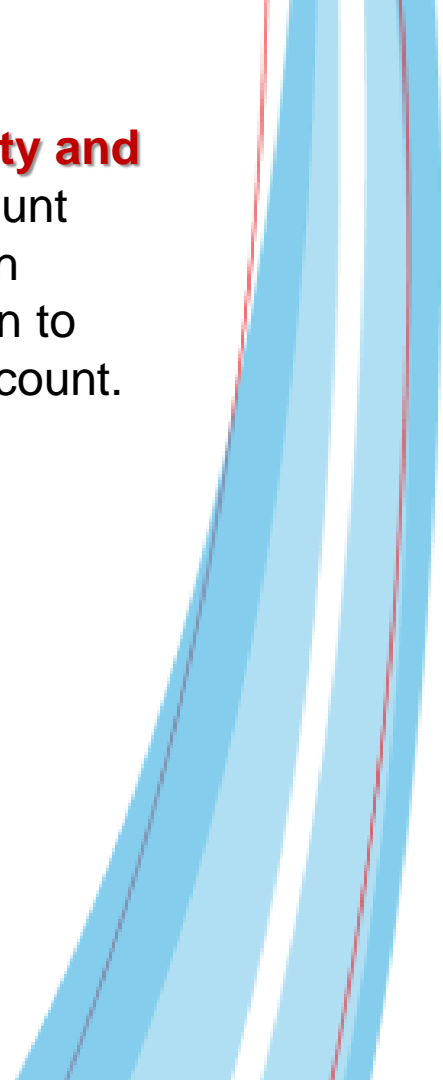

Registered address for the account of Electricity and Water

Maintaining the tariff (prior to adjustment) applicable Bahraini only one account

If the **ID address** does not correspond to that of the **electricity and water** account, or if a subscriber holding more than one account wishes to retain the current tariff for a particular account, such subscriber has to contact the Central Informatics Organization to have his electricity and water address changed to desired account.

Cases to which the tariff applicable to a Bahraini subscriber holding a domestic single account will apply:

1. A Bahraini who holds a single domestic account only – married to one wife, and he is Head of Household as per Information & eGovernment Authority's regulations. (A subscriber who holds more than one account will be eligible for one domestic account only at his choice provided, however, that the personal address of the subscriber in the Identity Card corresponds to his address for the electricity and water account to be selected).
2. Other wives with addresses different from that of the husband as long as the account registered in her name, and she is Head of Household as per Information & eGovernment Authority's regulations
3. A Bahraini subscriber (male/female) who holds a single domestic account only (divorcé/widower) and she/he registered as Head of Household as per Information & eGovernment Authority's regulations
4. A Bahraini bachelor subscriber (male/female) who holds a single domestic account only (over 21 years old) and he is registered as Head of Household as per Information & eGovernment Authority's regulations
5. A Bahraini female subscriber married to a non-Bahraini and has the electricity and water account registered in her name and she is registered as Head of Household as per Information & eGovernment Authority's regulations
6. A Bahraini female subscriber holding a single account only and married to a Bahraini citizen who has no account in his name, and she is registered as Head of Household as as per Information & eGovernment Authority's conditions.
7. The Bahraini minors who have or have not guardians upon approval in writing from the Minors' Estate Directorate.
